

CAP-IT

DECEMBER NEWSLETTER

Welcome to the CAP-IT December Newsletter. Back in November we had our Investigator Meeting in Birmingham, many thanks to all those who could attend/phone in. We are sorry that some sites could not make it but we look forward to meeting you at your Site Initiation Visit (SIV) if we haven't done so already.

So far we have completed visited Alder Hey, Liverpool; St. George's, London; Evelina, London; Southampton General Hospital and Bristol Royal Hospital for Children for site initiation and/or training. Thank to the teams for participation. We are planning more visits for January.

Good news! The drugs are now ready to be delivered to sites. Please send confirmation of delivery address for drug kits and sample collection kits. Please note that nothing will be sent out until the site has the green -light from the MRC CTU and local approval is in place.

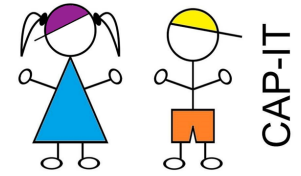

Lastly the database will be live early in the new year. Once this is up we can begin database training with you.

We look forward to recruiting the first children in early January.

All that's left to say now is Merry Christmas and Happy New Year!

CAP-IT Investigator's Meeting Nov 2016

PERUKI

MRC CTU closure dates:

Closed 24th December — 2nd January (inclusively).
